

PATIENT SPECIALIST PARTNERSHIP AGREEMENT

Our goal is to provide you with the best care possible. This can happen by using us as your Patient Centered Specialty Care Doctor. We will work with your Primary Care Doctor, who is your Patient Centered Medical Home, to help you feel better. Below are some important things to remember:

PATIENTS Please:

- After our visit, go see your Primary Care Doctor.
- Make and keep all appointments with our office and with your Primary Care Doctor.
- If you must cancel an appointment, make another one right away.
- Ask questions until you know what you need to do when you leave our office.
- Follow the plan we talked about during your appointment.
- If you are not able to follow the plan for any reason, tell us right away so we can help you set up another plan and ensure you get the best results.

SPECIALIST DOCTOR:

- We will ask you who your Primary Care Doctor is. We will let him/her know about your care as soon as possible.
- We will talk with you about your health and what you need to do to take care of yourself.
- We will talk to you by phone and in the office to answer your questions.

If your Primary Care Doctor tells us that we should continue to take care of a particular condition, the following will also happen:

- We will share information about your plan and goals with your Primary Care Doctor as quickly as possible.
- We will give you information to help you learn how to take care of yourself, and help you to set goals to improve your health.
- We will work with you to set up a plan to help you take care of your health along with your Primary Care Doctor.
